ABOUT US

WE DO FILMS

Our mission is to help businesses and individuals communicate their message through the power of video. We understand that every project is unique, and we work closely with our clients to ensure that their video is tailored to their specific needs and goals.

OUR SERVICES

PRE-PRODUCTION

This stage of planning is where you determine the when, where and how. At tale tellers, we oversee the entire project from conceptualisation to execution. We believe in thinking big and exploring innovative ideas and opportunities, opening new avenues for growth, even those that fall out of the traditional industrial norms.

PRODUCTION

We orchestrate the perfect symphony for films through the audio-visual story telling based on our experiences and technical expertise, alongside an open, transparent and inclusive work environment. We thrive on being able to deliver the best there is to offer, combining all our hard work and passion into the craft.

POST-PRODUCTION

This is where the magic happens. Our experienced team of editors, VFX, CG artists and sound designers assure high standard quality work and mould the final pieces of the craft into a masterpiece. We listen carefully and respond quickly to cater the needs of the project, clients and bring the idea successfully into reality.

PAST ASSOCIATION

Pre-production is a crucial phase in the production process that sets the foundation for a successful project. It involves careful planning, research, and preparation to ensure that the production runs smoothly and efficiently.

During pre-production, we work closely with our clients to understand their vision and objectives for the project. We then develop a detailed plan that outlines the project's scope, budget, and timeline, and identify potential challenges and risks.

We also work on creating a script, storyboards, shot lists, and other essential documents that guide the production team on the day of the shoot. This helps to ensure that the project stays on track and that everyone involved is on the same page.

In addition to planning, pre-production also involves casting actors, scouting locations, securing permits, and organizing the crew and equipment needed for the shoot. This helps to ensure that everything is in place before the production begins, saving time and reducing stress during the shoot.

Overall, pre-production is a critical phase that sets the tone for the entire production process. By taking the time to carefully plan and prepare, we can ensure that our clients' vision is realized, and the end result is a high-quality production that exceeds expectations.

Production is the stage where all the planning and preparation from pre-production come to life. It's the exciting part of the process where the magic happens, and the project begins to take shape. During production, we work with a team of skilled professionals, including actors, camera operators, sound engineers, and others, to capture the footage needed for the project. We use high-quality equipment and technology to ensure that the footage is of the highest possible standard.

We follow the plan developed during pre-production and make any necessary adjustments as the shoot progresses. Our team is always ready to adapt to unexpected situations and ensure that the production stays on track.

Throughout the production process, we prioritize communication and collaboration with our clients to ensure that their vision is being realized. We provide regular updates and seek feedback to ensure that the project is meeting their expectations.

Once the shoot is complete, we move on to post-production, where the footage is edited and polished to create the final product. Overall, production is an exciting and dynamic process that requires skill, creativity, and collaboration to deliver high-quality content that exceeds expectations.

Post-production is where the raw footage captured during production is transformed into a polished and engaging final product. It's an essential stage in the production process, where the magic of storytelling truly comes to life.

During post-production, we use specialized software and equipment to edit and refine the footage, add visual effects and sound, and create a final product that captures the essence of the project's vision.

Our team works closely with our clients to ensure that their feedback and vision are incorporated into the final product. We provide regular updates throughout the post-production process to ensure that the project is progressing smoothly.

We also pay close attention to the details, such as color grading, sound design, and visual effects, to ensure that the final product is of the highest quality possible. We work diligently to create a product that meets our clients' expectations and captures the essence of their vision.

Overall, post-production is an essential stage in the production process that requires skill, creativity, and attention to detail. By taking the time to refine and polish the footage captured during production, we can create a final product that exceeds our clients' expectations and leaves a lasting impact on the audience.
